

Information for Poster Presenters

This document helps you to plan your attendance at AutoSens to be held on **17-19 September at the AutoWorld Museum, Brussels.**

It contains essential information and guidelines for your participation. Be sure to read through each section to get the most out of your attendance at the event and maximise your potential from participating.

The posters will be displayed on the Blue Boulevard of the venue throughout the main conference days, and we will encourage attendees to visit the poster presentation session during the afternoon refreshment break on Day 1 from 15:45 and in the morning networking break on Day 2 from 10:20.

Submitting a poster

AutoSens focuses on vehicle perception for ADAS and autonomous vehicles, covering sensor hardware, computer vision, AI and image processing and more. We are interested in showcasing the latest academic research via our poster session and encourage submission to be made from all relevant research fields.

Please submit the poster title and brief summary of the research area to hayley@sensedia-events.com by August 16.

Poster dimensions

We will be using display boards that are 2m high and 1m wide, so would recommend a portrait format be used, if a width of 1m would not be enough to display the relevant information in a landscape format.

Registration

Please ensure you register your academic passes [here](#). This will enable you to get the most out of the conference and the networking opportunities.

Please report to the Check-In desk on your arrival, for directions to the poster display area.

We remain at your service, dedicated to ensuring you have the best possible experience at AutoSens. Please don't hesitate to contact me on hayley@sensemedia-events.com if you have any questions.
